

Company Employee Handbook

Sample Document for RAG Data Ingestion Pipeline

1. Leave Policy

Employees receive 18 paid leaves per calendar year. Casual leave can be used for personal requirements, while sick leave may be used when an employee is unwell. Employees should apply for planned leave at least three working days in advance through the HR portal.

2. Work From Home Policy

Employees may work from home up to two days per week with manager approval. Remote employees must remain available during core working hours from 10:00 AM to 6:00 PM. Employees should maintain a stable internet connection and attend scheduled meetings.

3. Attendance

The standard working week is Monday to Friday. Employees are expected to complete eight working hours per day. Late arrival of more than 30 minutes should be communicated to the reporting manager. Repeated unexplained absence may result in disciplinary action.

4. Employee Benefits

Full-time employees are eligible for health insurance, accidental coverage, and an annual learning allowance of INR 20,000. Benefits become active after successful completion of the probation period, unless otherwise stated in the employment agreement.

5. IT Security

Company laptops must use a strong password and approved security software. Employees must not share company credentials. Confidential documents should only be stored in approved company systems. Any suspected security incident must be reported to the IT security team immediately.

6. Performance Reviews

Employees normally receive a performance review twice a year. Reviews consider project delivery, technical skills, teamwork, communication, and professional development. Managers may define additional goals based on the employee's role.

7. Expense Reimbursement

Business expenses can be reimbursed when they are supported by valid receipts and approved by the relevant manager. Travel expenses should normally be submitted within 15 days after returning from a business trip.

8. Contact Information

For HR questions, employees should contact the HR helpdesk. For technical issues, employees should create a ticket with the IT support team. For security incidents, employees should use the company's security incident reporting channel.
